

UNIT TEST RAJENDRA VIDYALAYA

4 Pages

II-VIII

Name : Shivam Kumar Subject : Biology
Standard : 8th Date : 01/5/26 Roll No. : 46

1)

Ans a) (C) Plant → Small birds → Caterpillar

Ans b) (b) Trophic level

2)

Ans a) terrestrial

Ans b) decomposer

Ans c) * Rat

Ans d) 9

3)

Ans a) odd one → Tiger category
Category → others are category of herbivorous animals

Ans b) * odd one → Tiger

Category → others are category of parasites

4)

Ans a) Symbiosis, Predation, Parasitism

Ans b) Sunlight, Air

5)

Ans a → Biotic components

i) They are the living components of the ecosystem.

ii) Biotic components include parasites, herbivorous and carnivorous animals, etc.

Abiotic components

i) They are the non-living components of the ecosystem.

ii) Abiotic components include sunlight, air, water, soil, etc.

Ans b → Flora

i) Producers

ii) Autotrophs

Fauna

i) Consumers

ii) Heterotrophs

6)

Ans a → An ecosystem is a self-contained area composed of all different organisms living in it, interacting with each other as well as the physical conditions i.e. such as sunlight, air, water, soil, climatic factors, prevailing in the area.

Ans b) Food web is important to maintain an ecosystem because it provides many several interconnecting food chains to the animals living and organisms living in the ecosystem.

Ans b)
